

Welcome to the SECLI-FIRM newsletter

Welcome to the brand new SECLI-FIRM newsletter, where we'll be sharing information and updates about our EU Horizon 2020 project as it progresses.

If there's anything in particular that you'd like to see featured in the newsletter, you can email us at info@secli-firm.eu. You also can keep up to date with SECLI-FIRM news and announcements via [Twitter](#) (@SECLI_Firm) and our [LinkedIn](#) page.

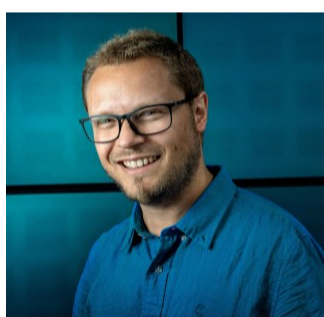

SECLI-FIRM stakeholder workshop

Over 50 experts from the energy and water industries and the seasonal forecasting community attended our second stakeholder workshop in Milan in January. The event focused on the latest advances in seasonal forecasting and their skill and value assessment. A full summary, including speaker presentations, is available on our website.

Professor Pierre Pinson webinar

Pierre Pinson, Professor at the Technical University of Denmark's Centre for Electric Power and Energy, visited the University of East Anglia recently to give a seminar on renewable energy forecasting. The session was also broadcast as a webinar and a recording is available for anyone who missed it.

SECLI-FIRM case studies

progresses.

SECLI-FIRM focuses on nine global case studies, designed with our industry and research partners, which aim to assist the energy and water sectors in risk management decision making. You can access all our case study factsheets using the link below. These will be updated with the latest findings as the project progresses.

SECLI-FIRM video

If you'd like a more detailed insight into the project, our SECLI-FIRM video is well worth a look. The video is designed to give an overview of the project and explain the value and application of season climate forecasting for the energy and water industries.
